

Discover Accelium Talent

AI-Supported Assessment Platform

Accelium Talent is an advanced system for skill assessment through games. The platform measures a wide range of abilities using an interactive test experience, provides in-depth reports, and utilizes artificial intelligence to generate meaningful insights. All of this takes place in a dynamic and engaging environment

How It Works: A Four-Step Process

- 1. Building the Assessment Journey**
Create a customized test with flexible game types and skills. Full control over the assessment process via an independent interface.
- 2. Sending a Registration Link**
Send a personalized link for easy registration and access from any device, with no installation needed.
- 3. A Unique Test Experience**
Game-based assessment available 24/7, offering enjoyable, challenging tasks with precise skill metrics.
- 4. Receiving Advanced Reports**
Personal and group reports with AI-assisted analysis, identifying trends and providing efficient insights through an intuitive Data Center.
