

Accelium Challenge

An exceptional digital
experience for teams in
your organization

Accelium Challenge

Do you think your team is ready for the next challenge?

Accelium Challenge is a virtual team-building tournament!

The challenge provide you with a great opportunity to cultivate a collaborative and fun environment for your employees. In the Accelium Challenge, teams from across the organization will have the chance to compete in thinking games and practice high-order thinking skills.

The challenge combines independent work and collaborative activities, which require team members to work together. Teams will be invited to participate in online thinking workshops - Master Class, and become familiar with thinking methods alongside game strategies!

Training Camp

Participants will be invited to an online training camp and take part in Master classes sessions to familiarize themselves with the format of the challenge and the thinking games they will compete in.

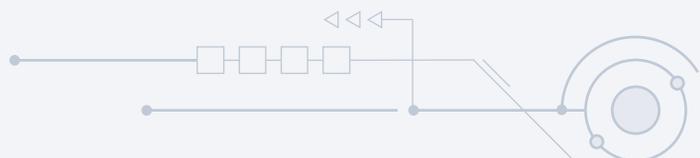

The online sessions will be held once a week and will last for an hour.

The training camp will be led by a certified Accelium coach and its main focus will be on thinking tools and game strategies.

Special emphasis will be given to the group assignments and participants will receive tips for working optimally together.

Structure – Online Master class session

- 1 hour on-line session
- Introduction to the game and the skills it's focus on
 - Review of the practice skills
 - The game is led by the facilitator and involves participants in decision-making
 - The objective of the session is to provide participants with tools that will aid them in the competition by providing insights into game principles, strategies and thinking concepts.

Training Camp

Summary and Final Results

5 weeks implementation

The challenge begins

Over the course of a week, the teams will compete in the 3 thinking games they learned at the training camp: **Blocker, 2-Flags and PingWins.**

A group's score will be determined by the points each team member contributes.

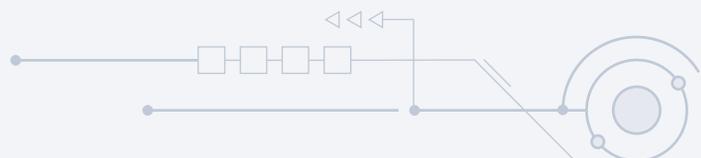

Completing all of the tournament levels will require approximately 3 hours.

Participants can work in the system, completing individual tasks at a gradual pace throughout the competition week without interfering with their regular work routine.

Structure - The Challenge

- Teams will get three games (the same they played at training camp) plus a bonus workout with particularly challenging levels!
- Each game is consists of 20 levels. The bonus workout is consist of 15 levels- total of 75 levels.
- The total completion time is estimated at 3 hours
- Participants can replay to improve their individual performance and the groups score.
- Follow the tournament scoreboard and team rankings on the official website!

Collecting Points

Each challenge is scored according to the quality of the solution. The score will be calculated based on accuracy, minimum moves, and the outcome of the game, either winning or losing.

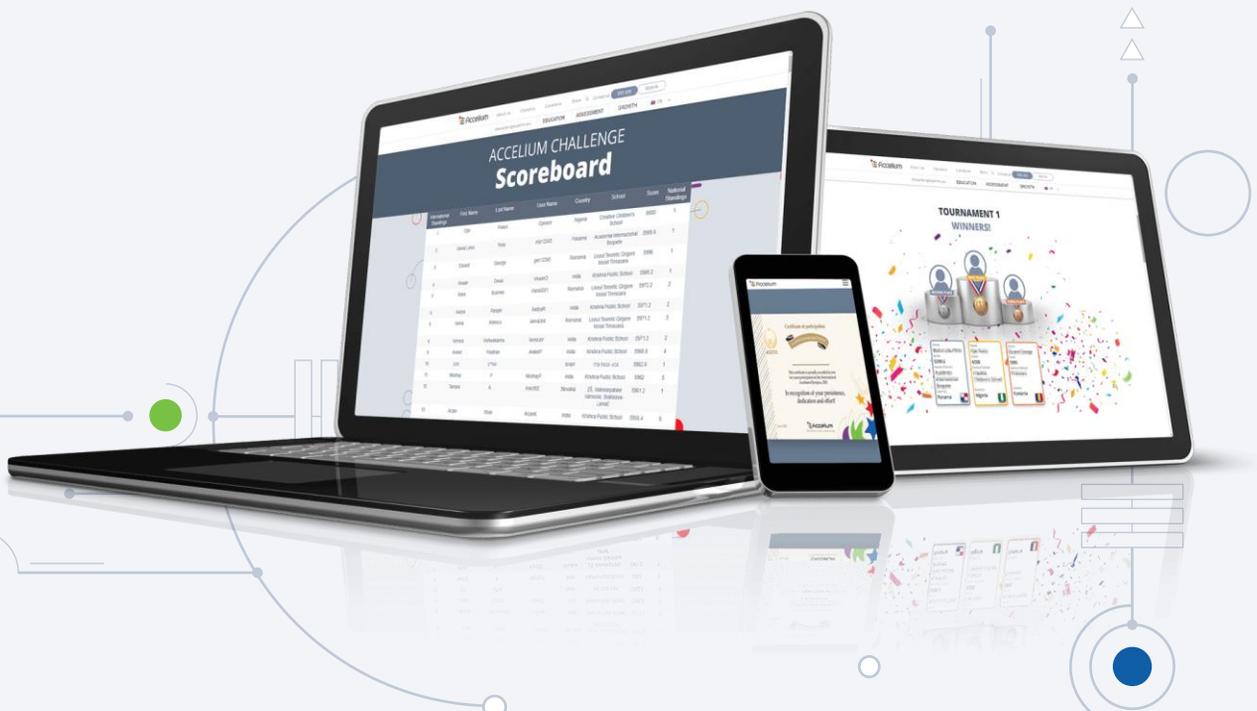

The points represent each participant's individual performance.

In order to calculate the teams score, we will average all the points from each group member.

Score board

A dedicated leaderboard will be set up for individuals and teams during the competition week to provide them with a complete overview of their score status.

Keeping track of the scoreboards allows teams to know where they stand in terms of the teams they are competing against. This is also an imperative part of motivating, engaging and encouraging them.

Accelium Challenge

The Games

Blocker

About the game:

The game in this workout is called **Blocker** - a strategy game designed for two players. Each player is given a limited number of resources in the form of barriers that can help block the opponent's progress and pave the way for victory!

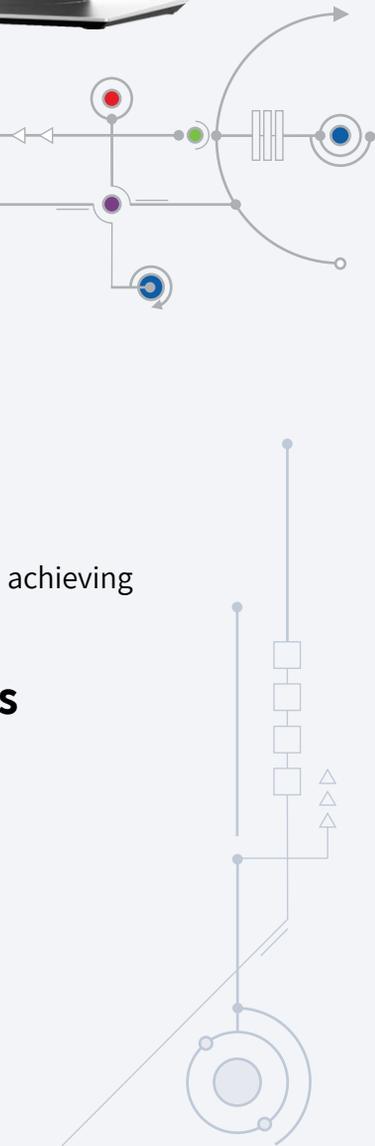

Main tool:

Self Block - Setting and achieving team goals

Practiced Skills

- Calculation
- Adaptability
- Resource Management
- Prioritization

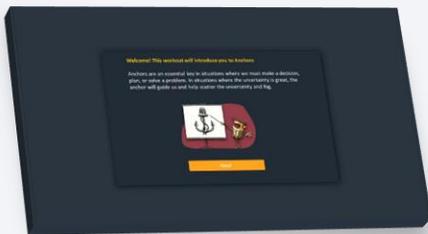

Accelium Challenge

The Games

PingWins

About the game:

PingWins is a challenging puzzle game where we have to lead the penguin into the fishing hole. The path will not always be clear, and the solution lies in our ability to identify anchors!

Main Tool:

Asking Questions to improve communication

Sub- Skills

- Problem Solving
- Identifying Patterns
- Following Move Order
- Planning

Accelium Challenge

The Games

2-Flags

About the game:

The game in this workout is **2 Flags**. It's a two-player strategy game in which you must conquer the opponent's flag by harmoniously using five scouts (game pieces). To win, you will need to create a plan and execute it while overcoming the opponent's threats.

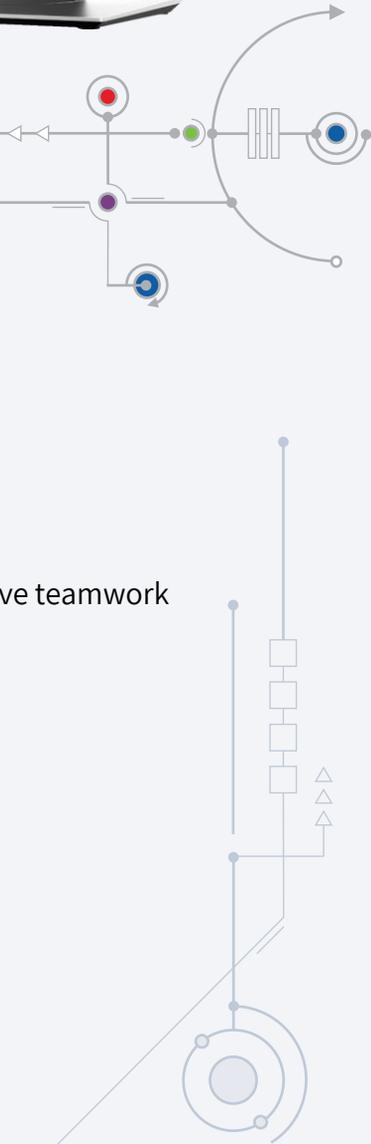

Main tool:

Who's available? Improve teamwork

Sub- Skills

- Planning
- Identifying roles
- Strategic Thinking
- Analysis and Deduction

It is a win-win for everyone!

- ✓ An enriching, fun and engaging event
- ✓ Providing participants with effective thinking strategies to use in the workplace
- ✓ Improves communication skills in the team
- ✓ Develops practical strategies for team collaboration
- ✓ Contributes to a positive working environment
- ✓ Enhances values such as perseverance, adherence, and purposefulness

Accelium Group- Experts in Game-Based Learning and Assessment

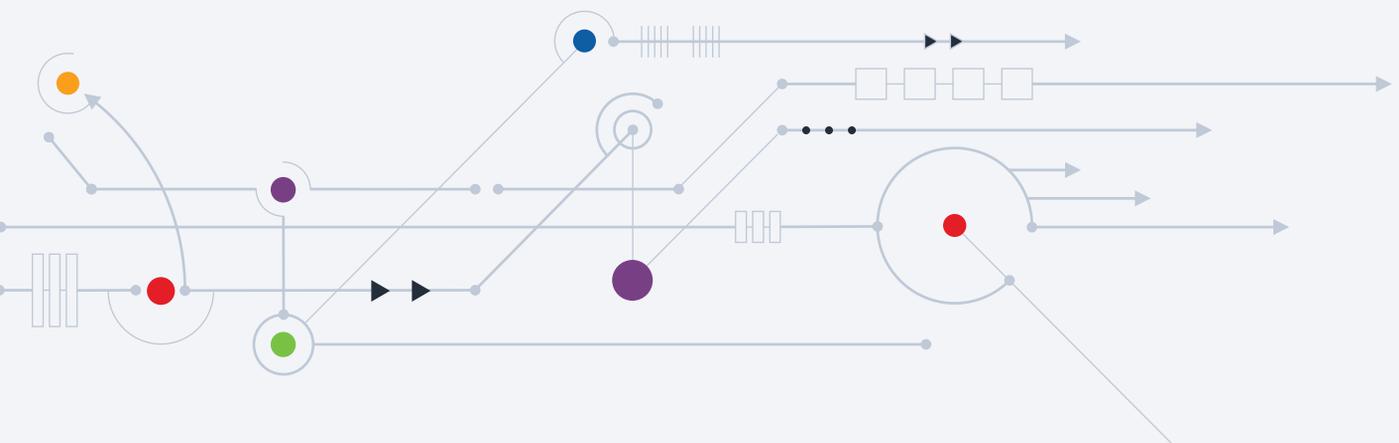

Accelium develops higher-order cognitive, social and emotional skills using strategy games. Based on a scientifically proven methodology and adopted in over 40 countries worldwide, our unique learning process blends class instruction, personal coaching and state of the art digital learning. For the past 25 years, we've been introducing learners to the powerful strategic tools used by Chess Masters and Game Theory experts for analysis, problem solving, and decision making, helping them become more effective, methodical and resilient.
